

Free LED Open Signs for Humboldt County Businesses

Light Emitting Diode (LED) Open Signs are as bright and at least six times more efficient than neon signs with magnetic ballasts, and can help lower your energy bills.

Enjoy instant savings! Redwood Coast Energy Watch (RCEW) is offering **FREE** energy-saving LED Open Signs in exchange for functioning neon open signs. Fill out the form below and an RCEW Technician will replace each of your neon open signs with **FREE** LED Open Signs today. To make a future appointment, simply fill out the form and fax or mail it back to us.

I would like to receive email from Redwood Coast Energy Authority about energy efficiency opportunities, workshops, and events. E-Mail: _____

Funding is limited. LED open signs are provided on a first-come, first-served basis while supplies last. You must have a functioning neon open sign to participate. Neon open signs will be collected and properly disposed by RCEW. This program is funded by California utility customers and administered by PG&E under the auspices of the California Public Utilities Commission.
