Re: Docket No.'s: P12779-000; PG&E Humboldt WaveConnect Project and
P12780-000; Fairhaven OPT Wave Power Project

Dear Ms. Salas:

It has come to Humboldt County's attention that there have been applications submitted for permits related to wave energy projects. It is also our understanding that the project sites could be located off the Humboldt County coast.

Our coast and adjacent offshore waters are famous for hosting a multitude of fish and wildlife species. In addition, the coastal zone is subject to intense winter weather and large ocean swells. Equally as important are the commercial and recreational fisheries. The economic and historical significance of these Humboldt County fisheries cannot be overstated.

Accordingly, we are requesting notice of any documents that are filed in these matters pertaining to any wave energy projects along our coastline. We thank you in advance for considering our request.

Sincerely,

Bonnie Neely, Chair
Humboldt County Board of Supervisors
